

# SCMT3 Award Winning Paper

This is to certify that the paper  
*“Shrinkage Characteristics of Alkali-Activated Slag Cements”*  
by

*Christopher Cartwright, Farshad Rajabipour,*  
*and Aleksandra Radlińska*

was judged by the SCMT3 Awards Committee to be an outstanding paper presented at the Third International Conference on Sustainable Construction Materials and Technologies held on August 18 – August 21, 2013 in Kyoto, JAPAN.

*This conference is the third international conference in a series that is held every three years by Coventry University and the University of Wisconsin - Milwaukee Center for By-Products Utilization for the purpose of technology transfer and continuing education for engineers and other professionals engaged in and interested in sustainable and alternative materials in various construction applications. About 450 professional from about 40 countries attended this international conference. SCMT3 was co-sponsored by the Japan Concrete Institute.*
